

European Transport Systems 1990–2010

What have been the trends and what are the prospects for European transport systems?

A

It is difficult to conceive of vigorous economic growth without an efficient transport system. Although modern information technologies can reduce the demand for physical transport by facilitating teleworking and teleservices, the requirement for transport continues to increase.

B

As far as goods transport is concerned, growth is due to a large extent to changes in the European economy.

D

However, a new imperative-sustainable development-offers an opportunity for adapting the EU's common transport policy.
